Suitable eye protection is required on the tip of the transmitter antenna.

Voluntary Contribution: Help preserve the sport of model sailing at Redd's pond. The club's largest expense is control of Redd's aquatic grass. Racing is impossible when boats are fouled by grass. Based on recent experience, treatment will be required every two years instead of 3 as in the past. Please consider a contribution towards this expense. Contributions will be accounted separately from dues and will be used only for Redd's.

I hereby agree to subscribe to the club purpose and adhere to the highest standard of sportsmanship. Also, I shall abide by the MMYC By-laws and the US SAILING Racing Rules, including Appendix E.
